- Node.js, Express.js
- RESTful API Design and Integration

Database Management

- MongoDB, MySQL

Tools and Platforms

- Version Control: Git, GitHub
- API Testing: Postman
- Development Environment: Visual Studio Code (VSCode)

Other Skills

- Deployment of Applications
- Debugging and Performance Optimization

Projects

E-Commerce Website for Books (MERN Stack)

Developed a dynamic e-commerce platform where users can:

- Buy and sell books seamlessly with an intuitive user interface.
- Register, log in, and manage their profiles securely using JWT authentication.
- List books for sale with detailed descriptions and pricing.
- Search for books based on categories, authors, or keywords.

Integrated MongoDB for storing user data and product listings.

Built RESTful APIs for handling backend operations like book management and transactions.

Deployed the application on Netlify.

Tools & Technologies: React.js, Node.js, Express.js, MongoDB, Bootstrap, Postman
